WPS Health Solutions

Building a healthy future for our customers and our community

A HEALTHY CONVERSATION.

For more than

70 years

WPS Health Solutions has been building a healthy future for our customers and our country through our health insurance plans and our government contracts.

Our business is finding solutions

Health benefits can be complicated. WPS offers solutions.

WPS is an innovator in health insurance and a worldwide leader in claims administration, serving millions of beneficiaries in the United States and abroad.

We offer health insurance plans for individuals, families, and seniors, and group plans for small and large businesses. We are a world-class claims processor and program administrator for the government's Medicare program. And we manage benefits for millions of active-duty and retired military personnel and their families, here and around the world.

WPS was founded in 1946, helping fill the need for affordable health care for the more than 300,000 soldiers returning to Wisconsin after World War II. Today, we are still driven to serve the needs of our communities—finding innovative health solutions, delivering value, and making our products easy to understand and use.

\$1.99 billion
in benefits through Veterans Affairs in 2017.

WPS | MILITARY AND VETERANS HEALTH
For your service.

WPS Military and Veterans Health

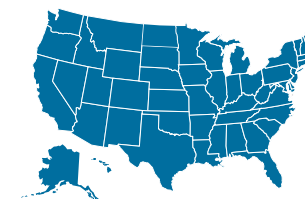

WPS Military and Veterans Health administers claims and provides customer service and related activities for the U.S. Department of Defense and the U.S. Department of Veterans Affairs (VA).

We're committed to ensuring those eligible for TRICARE® and VA benefits in the U.S. and overseas receive the highest level of customer service.

WPS Military and Veterans Health began partnering with Humana as a subcontractor on the Defense Health Agency's TRICARE East Region contract. We contribute information technology support, claims processing, and customer service functions for more than 6 million beneficiaries.

WPS Military and Veterans Health also has contracts administering the TRICARE Overseas and TRICARE For Life programs and for the VA Choice program.

\$933,000

has been awarded to employees' children for education scholarships through the WPS Charitable Foundation's Ray Koenig Memorial Scholarship Fund.

Building healthy communities

WPS promotes the health and well-being of the communities our customers and employees call home.

We champion causes that are meaningful to our employees and communities, with a special focus on health care for the senior community, military, and veterans. We also support women's and children's health initiatives, and have raised more than \$400,000 for the United Way over the last four years.

Our employees care about and get involved in the community in many ways, including giving blood, donating to our annual United Way drive, delivering meals to seniors, mentoring students, organizing collections for disaster victims, coordinating food and clothing drives for homeless and hungry families, and gathering school supplies for disadvantaged students. Our employees also are involved in the company-sponsored Veterans Enhancement Team group, which supports active-duty military personnel, veterans, and their families.

WPS and our employees donated more than \$1million in the past five years to organizations that connect our corporate values to the social conscience of our customers and employees.

In 2017, WPS Health Solutions supported more than

50

organizations through corporate donations, casual day sticker sales, employee drives, in-kind donations, and employee volunteerism.
